8. Announcements

9. Business Items

a. Update on SB 1383 Implementation

Background: In September 2016, Governor Brown signed into law SB 1383, establishing methane emissions reduction targets in a statewide effort to reduce emissions of short-lived climate pollutants in various sectors of California's economy. As it pertains to Solid Waste and CalRecycle, SB 1383 establishes targets to achieve a 50 percent reduction in the level of the statewide disposal of organic waste from the 2014 level by 2020 and a 75 percent reduction by 2025. The law grants CalRecycle the regulatory authority required to achieve the organic waste disposal reduction targets and establishes an additional target that not less than 20 percent of currently disposed edible food is recovered for human consumption by 2025. In 2020, CalRecycle adopted regulations that govern and lay out specific implementation requirements for local jurisdictions to comply with SB1383. Staff will provide an update on SB 1383 requirements, implications for the City, and efforts currently underway to implement the requirements.

Recommendation: Discuss and provide feedback to staff as appropriate.
